PENN DOT NEWS

Penn Dot to Launch West Fourth Street Reconstruction Project

Next spring, PennDOT District 3-0 will launch a reconstruction project on West Fourth Street that when completed, will greatly improve the condition of that street in the Newberry section of Williamsport.

The existing pavement on West Fourth Street is severely deteriorated and in need of reconstruction. Traffic signals are antiquated and pedestrian crossings are not ADA compliant.

This 1.37-mile project is from Hillside Avenue to the bridge spanning Lycoming Creek.

It will be a multi-year endeavor that includes a complete reconstruction of the roadway from Hillside Avenue to Moore Avenue and milling and resurfacing from Moore Avenue to the Lycoming Creek bridge. Reconstruction includes new curbing and sidewalks, storm sewer upgrades, underground and overhead utility work, driveway and street tie-ins, new traffic signals, and ADA curb ramps.

A local detour will be in place during work on West Fourth Street. The main eastbound detour route is from West Fourth Street to Wahoo Drive, Wahoo Drive to Trenton Avenue, Trenton Avenue to McMinn Avenue, McMinn Avenue to Poplar Street/West Third Street, West Third Street to Rose Street, and Rose Street to West Fourth Street. There will be side street access between Poplar Street and Moore Avenue.

Westbound traffic will follow the same route except where West Third Street intersects with Poplar Street. Traffic would make the

Continued on Page 2

same movement as it currently does, which is a right turn off of West Third Street onto Poplar Street, and a left turn onto Trenton Avenue. McMinn Avenue will be one way for eastbound traffic. Because work on West Fourth Street will be done in sections, the entire project limits will not be closed for the duration of the project.

Enhancements needed on the detour routes include improvements to Trenton Avenue, McMinn Avenue, West Third Street and Rose Street.

Trenton Avenue improvements include upgrading all rail crossings to current standards, shoulder widening, reconstruction to eliminate curves at rail crossings, storm sewer installation, drainage improvements, base repairs, paving, overhead utility relocation, installation of curb ramps, driveway and side road tie-ins. Trenton Avenue has three railroad crossings with insufficient widths for large trucks to stay in the appropriate lane while turning, drainage issues and base failures.

The existing pavement on West Third Street from Poplar Street to Rose Street and Rose Street to West Fourth Street is a mixture of base failures, surface cracking and newer improvements.

McMinn Avenue improvements include constructing a single lane.

West Third Street and Rose Street travel lane improvements consist of localized base repairs and mill and overlay.

2016 construction season consists of improvements on the detour route.

2017 construction season consists of completing the improvements on the detour route and starting work on West Fourth Street. Work may carry over into 2018.

Some aspects of this project still are in the design phase. PennDOT is working to minimize impacts and ensure access to residents and businesses in the work area.

A public meeting, in which the scope of the project and traffic control plans will be presented is planned sometime in the spring.

Anyone with questions about this work may contact Project Manager Heidi Lozano at 570-368-4264 or at hlozano@pa.gov.

ELM STREET IN NEWBERRY?

Have you noticed that a new paint job or a few home repairs can have a big impact in a neighborhood? And that they are catching, stimulating neighbors to repair their buildings too. This process can start spontaneously, but it accelerates when a community creates a façade improvement program.

The Newberry Elm Street Façade Improvement Program, created with the support of the City of Williamsport and the Newberry Community Partnership, was introduced a few years ago. You may have noticed improvements to homes and businesses on the West Fourth Street and Arch Street gateways to Newberry.

Over the past five years eight properties, both residential and commercial, were assisted with Elm Street grants to improve their exterior facades. Work already completed includes painting, porch repairs, fencing, windows, roofing, and signage.

The effort is still underway. Two Arch Street properties are being repaired right now and two more are in the application stage. Look for the green Elm Street sign!

The good news: Some funds are still available. The not so good news: The program must close late spring, so if you own a property on Arch between Newberry Street and West Third or on West Fourth from Arch to Poplar, contact the City Hall Community Development office at 570-327-7513 now.

There may be assistance available to help you improve the exterior of your property and maybe nudge you neighbor to start repairing his.

Traffic Safety

learn safe driving "By the Numbers"

40

In a crash, unbuckled passengers can become a projectile and increase the risk of hurting or killing others in the car by **40%!**

When you buckle up, you protect your child. In a crash, your seatbelt keeps you from flying into your child, which could injure or kill.

STEP to Celebrate 50 Years of Partnerships in 2016

Incorporated in 1966, STEP will celebrate its 50th year as a private, non-profit community action agency in 2016. Formally known as the Lycoming-Clinton Counties Commission for Community Action (STEP), Inc., STEP is part of a national network of 1,100 community action agencies, and, by budget, the 4th largest of the 43 in Pennsylvania. Community Action Agencies were created in the mid-1960s as part of President Johnson's War on Poverty, along with other major programs such as Head Start.

STEP is planning on hosting several events throughout 2016 in order to recognize and celebrate agency partners, donors, STEP employees, and the customers served by STEP, along with an exciting yearlong fundraising campaign. Keep an eye on local media sources for more information! STEP's mission is to engage diverse individuals, families, and communities in the pursuit of social and economic success.

This mission is accomplished through five Pathways to Success: Early Learning, Housing Options, Workforce Development, Community Collaboration, and Independent Living. Some of the programs in the five Pathways include Head Start, Housing & Building Initiatives, Childcare Information Services, AmeriCorps, Transportation Services, Office of Aging, and many more. A complete listing of STEP's current programs can be found by visiting the agency at 2138 Lincoln Street, Williamsport, or at stepcorp.org.

WEST END CHRISTIAN COMMUNITY CENTER NEWS

The Warmth of Winter from the WECCC

I know our title is an oxymoron but here at the WECCC we are truly experiencing warmth. Oh yes, the furnace is on and running, but there's another kind of winter warmth here; the warmth of friendship, the warmth of serving, and satisfying needs, the warmth that comes from caring for others as we are cared for.

I put out a plea on Facebook because we were in danger of running out of warm clothing. That plea was shared tremendously, and warm clothing, coats, and blankets have been coming in from the community. What a warm feeling. Thank you.

There is no other pleasure on a cold winter morning, like the warm smell of healthy food cooking, coming from a kitchen that is going to serve lunch that day for 75 to 100 people.

Those of us who are involved with the West End Christian Community Center have the warmth of being served through serving. When we leave the building dark, and the icy wind knocks us in the face on the way to our cars or as we're walking, we are blessed with the warm satisfaction of what happened here.

Please look to us if you have any room rentals, or banquet hall needs. We are continuing to attempt to upgrade our facility to serve the community more fully.

Shop or donate at our Clothes Closet and Thrift Shop. Come and eat in our Soup Kitchen. Or, maybe even volunteer, and enjoy a little WECCC warmth this winter. Stop by and see us, on the corner of 4th and Diamond.

Until next time,

*~ Todd Penman,
Executive Director*

FRESH EXPRESS

Food Giveaway Scheduled

The Newberry Church of Christ wants to reach out to those in need by providing supplemental food. Through the Fresh Express Program, food will be distributed twice a month to those in need. The only requirement is that you fill out a brief form and bring your own shopping bag or container.

Distribution for 1st Quarter of 2016
4:00 to 6:00 PM
January 7 & 21 • February 4 & 18
March 3 & 17

Food will be distributed, while supplies last, at the Newberry Christian Center, 2100 Linn Street. For information call 570-326-0731.

INSIDE OUR SCHOOLS...Reports from Newberry's Schools

Jackson Primary School

Reflecting and Planning

The midway point of the year is a perfect time to reflect and plan ahead. It's also a time to be thankful and look for opportunities to celebrate and give back. Here are the highlights:

October — We found a way to give back by contributing to the Ronald McDonald House charity in Danville. Students took pledges for a walkathon and collected can tabs. Can tabs collection to support RMH will continue to the end of the school year.

November – A canned food drive for the Salvation Army was held. Our students were motivated by our Counselor Mrs. Becker who offered to have 10 inches of her hair cut to be donated to the Pantene Beautiful Lengths program. Her hair will provide a wig to an individual as they continue their fight against cancer.

December — Our teachers and librarian organized a student collection of supplies to be sent to our troops.

School Wide Positive Behavior System (PBS) is a constant focus. We're always seeking ways to recognize positive efforts by students and staff. Staff members carry Millionaire Buck Tokens and are alert for opportunities to catch students **Making Awesome Great Incredible Choices (MAGIC)**. Students carry coupons to recognize staff for being positive influences. Student's tokens are used for prizes like eating lunch with their teacher, special lunch seating or wearing the Principal's tie. Those who earn tokens are entered into drawings; Winners become Principals 100 Club Members for a day.

If you would like to contribute to our MAGIC making efforts, please call (570-323-1992) or stop by the school. We're always looking for financial donations for prizes or gift cards to use in drawings for families and staff. Jackson truly is a community school with parent and staff leaders working together to provide an environment where all are welcome. To learn more about our efforts, please like us on Facebook or visit our website at www.wasd.org, choose schools/Jackson. Have a blessed and Happy New Year!!!

Jackson's "Tinker Town" Receives \$2,500 Crayola Grant; \$1,000 in Supplies

Crayola and the National Association of Elementary School Principals (NAESP) selected Jackson Primary School as a recipient of a \$2,500 Champion Creatively Alive Children grant to expand and enhance its Tinker Town program that began last year. The school also received \$1,000 in Crayola products.

Jackson is one of the 20 elementary and middle schools across the nation selected to receive the grants, which fund innovative programs aimed at fostering children's critical thinking, creativity, collaboration and communication skills.

Launched last year through a \$1,500 Teacher Mini-Grant from the Williamsport Area School District Education Foundation, Tinker Town was an after-school program that provided a creative, hands-on opportunity for students that challenged them to think creatively and critically while

Continued on Page 6

INSIDE OUR SCHOOLS... *Continued from Page 5*

exploring ideas through STEM (science, technology, engineering and math).

The program saw an explosion of interest from the students and parents, and is providing an innovative lens that continues to redefine learning.

Tinker Town is led by art teacher Sandy Corson, elementary librarian Sarah Bohnert, kindergarten teacher Rebecca Rockey and second-grade teacher Kerri Kotch.

“Seeing the dedicated Tinker Town team here at Jackson develop and grow this program has been very encouraging to me professionally and personally,” said Principal Kirk Felix. “Having 250 families express an interest in having their children participate is evidence of how this team’s efforts are providing a fun and effective learning opportunity supported completely by volunteer efforts. I am proud and privileged to be a part of this group.”

In addition to the Crayola funds, the program team is pursuing an additional \$1,500 Teacher Mini-Grant through the district’s education foundation to help further support and develop other, newer aspects of the program.

“Tinker Town engaged, awakened and challenged the emotional, physical, intellectual, social and creative aspects of our students,” Corson said of the program last year.

~ Kirk C. Felix, Principal

West Branch School

Students Benefit from New Technology Program

The students at West Branch School are benefitting from a new technology program. The program was introduced by teacher Michelle Duddy for the 2014-2015 school year. According to Duddy “The goal of the technology program this year is to develop students’ technology skills. Technology is used to complement and extend the curriculum in each subject. Grade-appropriate instruction in keyboarding, basic operations, word processing, coding, electronic presentations, research, and utilize the Internet to explore opportunities for meaningful learning. Students are taught legal and ethical practices related to technology use and safety.”

West Branch School students learn about technology

So far this year the students have learned to use e-mail, google slides/sheets/documents and online presentation software called Prezi, which has quickly become a favorite. Google Classroom is being utilized for online assignments and online study tools such as Quizlet and Kahn Academy were introduced early in the year and give the children the opportunity to put technology to use when studying other subjects. Desktop computers, laptops and iPads are all available for use.

“I like when we make projects on the computer like in Microsoft word. We used that for our monarch projects and we did some of our social studies projects on the website Prezi. It’s a lot of fun because you learn new things.” says Isabella Gehron, age 9.

There is a lot in store for the technology program for the second half of the school year. There will be a focus on coding using sites such as Scratch and Scratch Jr., Python and Javascript. Students will continue to work on keyboarding skills to type letters and will have the opportunity to work on S.T.E.M. (Science, Technology, Engineering and Math) based activities. WHAT'S BREWING IN NEWBERRY

Newberry is known for being a friendly welcoming neighborhood. A variety of friendly places to meet with family and friends to socialize, share a meal and have fun can be found right in our own backyard.

SENECA SUDS

2239 West 4th St. & Seneca Avenue

New to the neighborhood is Seneca Suds that opened in November. Serial entrepreneurs Dennis and Lisa Mendler purchased the former site of the Wander Inn after the passing of Mary Bradley.

"I've always wanted to own a neighborhood bar where folks could drop by for a drink, perhaps a bite to eat and relax, said Dennis." They've retained the staff but the Mendlers have made extensive upgrades to the exterior and interior of the building. Other changes he noted that Seneca Suds is now a tobacco free environment. The kitchen now offers chicken wings, pizza, quesadillas, and snacks. Customers can shoot darts, play pool or keep an eye on their favorite sports on the five flat-screen TVs.

"The warm response from local patrons as well as many new faces who are turning out for Karaoke Fridays has been gratifying," he commented. "Look for Quizzo nights coming soon."

Hours: Mon.-Fri. 3 PM-12:00 AM, Sat. & Sun. 11 AM-12:00 AM. Ph. 570-980-9917
Parking in the rear.

RIEPSTINE'S PUB & BREWERY

913 Arch Street

"Where It's All About The Beer."

Bart and Tess Rieppel opened their unique pub two years ago. The West End's only micro-craft brewery was an instant hit with its friendly knowledgeable staff, ever changing menu of appetizers, homemade soups, sandwiches and weekend family meals, tobacco free environment and its most shocking departure from the norm – no TV's or loud music. Patrons could

actually converse!
If beer is not your thing you can still join your beer loving friends

because the pub also offers local wine and cider. They've recently added a new menu item; four varieties of burger sliders. The first Thursday of the month is open mic night for musicians.

If you can't make it to Riepstine's, you will find four flavors of their beer available in grocery stores in four packs and twelve packs at Home Service Beverage.

Hours: Wed. & Thurs. 4 PM - 10 PM, Fri. & Sat. Noon - 11 PM, Sun. Noon to 8 PM.

KAST HOTEL PUB & GRILL

723 Arch Street

This historical landmark is a perennial favorite for lunch, dinner or just popping by for a drink with friends.

Since Kevin and Shawn Pequignot took ownership they've made many improvements. They restored the second and third floor rooms to offer short and long term hotel accommodations. They applied for and received an Elm Street Façade Improvement Grant for exterior repairs, painting and lighting. This past autumn they completed a lovely fenced in patio so we can look forward to outdoor dining in spring.

Hours: Mon.-Sat. 11 AM – Close, Sun. Noon to Close. Smoke free dining. Parking in the rear.

LYCOMING COUNTY MASTER GARDENERS NEWS

Home Gardeners, Make the Cut!

All about Pruning Landscape Trees and Ornamental Plants

Late winter is the perfect time to prune trees, but must be done correctly for continued plant growth and vigor. Master Gardeners Karl Zierle, Paul Nyman, and Ed Bordy will be presenting the how and why of pruning. Learn why topping is not an acceptable technique and discover recommended alternatives. Pruning is the most common tree maintenance procedure. Although forest trees grow quite well with nature's pruning, landscape trees require a higher level of care to maintain their structural integrity and aesthetics. Individuals will learn that pruning must be done with an understanding of tree biology and that improper pruning can create lasting damage or even shorten the tree's life. When you are ready to make that first cut this spring, you will be able to cut with confidence!

Lasagna Gardening and Raised Beds Plan and Be Prepared for Spring!

Now is the time to consider gardening this spring. If you are limited in space, consider lasagna gardening and raised beds! Master Gardeners Caroline Brady and Heather Allison will discuss the benefits and how to plan these gardens. Attendees will learn how these gardening techniques can meet their needs, and preparing the sites.

Both events will be held on Saturday, January

23rd in Suite 206 of the Lysock Complex at 542 County Farm Road, Montoursville, PA. The Pruning class will be held from 9:00 to 10:30 AM and the Lasagna Gardening class from 11:00 to 12:30 PM.

While free, PRE-REGISTRATION is requested due to limited seating. Pre-registration must be completed by 4:30 PM, Thursday, January 21st. To register, call the Cooperative Extension Office at 570-433-3040 or go online to

<http://extension.psu.edu/lycoming/events> and click on this event.

Penn State encourages persons with disabilities to participate in its programs and activities. If you anticipate needing special accommodations or have questions about the physical access provided, please contact Jean Hammond at (570) 433-3040 prior to your participation or visit.

WILLIAMSPORT BUREAU OF FIRE

PREVENTION ■ EDUCATION ■ INVESTIGATION

Did you know home fires occur more in the winter than in any other season. Half of home heating fires are reported during the months of December, January and February than any other time of the year. The Williamsport Fire Department wants you to stay cozy and warm this winter season and Be Fire Smart. Here are a few safety tips:

- Keep anything that can burn at least 3 feet from any heat source like fireplaces, wood stoves, radiators, or space heaters
- Keep portable generators outside, away from windows, and as far away as possible from your house.
- Plug only one heat-producing appliance (such as a space heater) into an electrical outlet at a time
- Have a qualified professional clean and inspect your chimney and vents every year

- Always use the right kind of fuel, specified by the manufacturer, for fuel burning space heaters
- Make sure the fireplace has a sturdy screen to stop sparks from flying into the room. Ashes should be cool before putting them in a metal container. Keep the container outside and at least 10 feet from your home and any nearby buildings

Finally, test smoke and carbon monoxide alarms at least once a month during this period.

The Williamsport Fire Department wishes you and your family a happy and safe 2016. We continue to offer free smoke alarms and will even come out and install them. To find out more about fire prevention programs and activities we offer, please contact us at (570) 329-3820 or (570) 327-1602. To learn more about Home Heating Safety and other fire safety tips, please visit NFPA's website at www.nfpa.org then click Safety Information.
